

## Membership Meetings - Wages Agreement

### The Wages Agreement covering most Public Sector workers expires at the end of this month

A series of membership meetings have been scheduled for union members to discuss upcoming negotiations and to endorse a bargaining position. It's important Members attend these so they understand the campaign ahead and have a chance to put forward their views. The Government has given approval for union members to attend these one hour meetings in paid time subject to Agency exigencies. Members should advise their direct managers of their intention to attend as soon as possible and add a reminder to their diaries.
