Dear Mr Lynch

Following recent media commentary regarding a proposal to remove entitlements from the Public Sector Superannuation *Defined Benefits Scheme*, I would like to restate our position.

The Tasmanian Labor Party's clear and unqualified position is that Public Sector superannuation entitlements will always be met as they fall due.

Furthermore, I can categorically rule out any change to entitlements for members of the *Defined Benefits Scheme*.

The Labor Party does not believe it is appropriate to retrospectively and unilaterally change employment conditions.

Yours sincerely

Lara Giddings MP
