IN 2 WEEKS YOU’LL GET A PAYRISE NEGOTIATED FOR YOU BY THE CPSU

IT’S THE LAST ONE you’ll receive until a new agreement is negotiated and it’ll be the 7th year in a row that public sector wages have been capped at 2%. The CPSU is calling on the Hodgman Government to Scrap the Cap, and we’ve scheduled meetings around the state to start a discussion with Members about this important issue. Come along and bring your workmates, it’s a great convo for those who haven’t joined your union.

Wage growth in Australia is the lowest since records began and even the Reserve Bank governor says workers should be demanding higher wages.

MEETINGS

SOUTH
